

# Blue Moon Tank instructions

## step 1

All you need to build your own papercraft Blue Moon Tank, are the parts (preferably printed on thicker paper!), a knife, glue, a rubber cutting mat (to protect your desktop) and a toothpick (useful to pre-shape small parts).

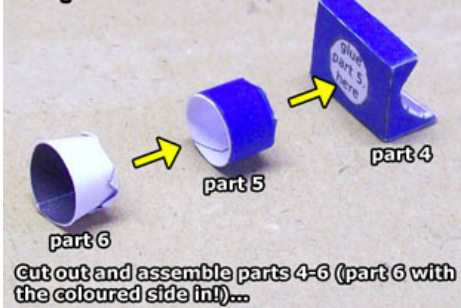

## step 2

## step 3

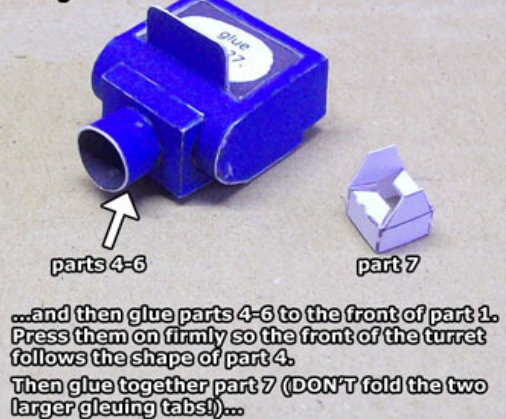

## step 4

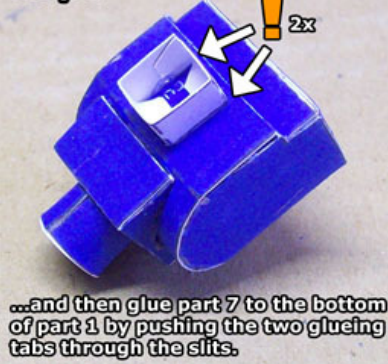

## step 5

## step 6

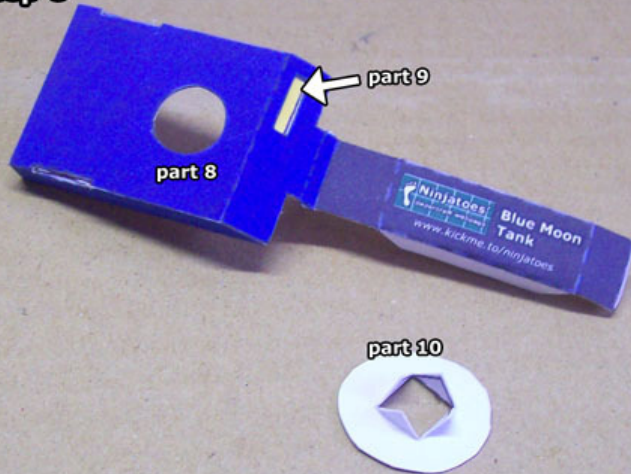

## step 7

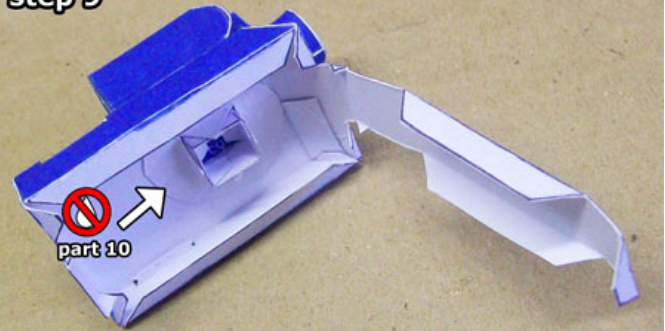

### step 8

Cut out the two holes on part 8, but don't glue together the bottom yet! First glue part 9 to the backside of the rectangular hole at the front...

### step 9

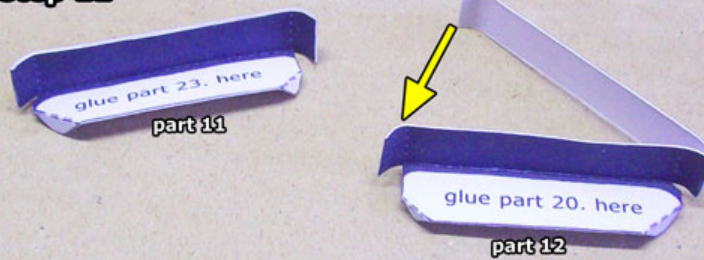

...and then push part 7 on the turret through the round hole on top. Glue part 10 over the square axle to lock the turret in place, but make sure you don't glue part 10 to the inside of the hull!!

### step 10

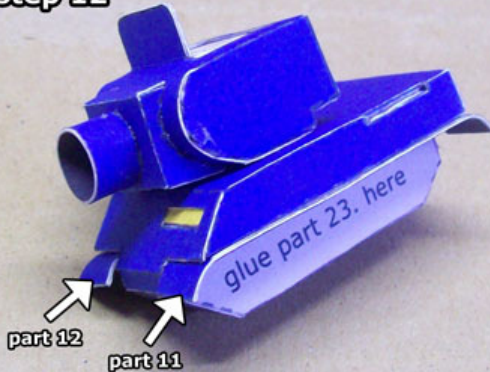

Now glue together the bottom as shown here.

### step 11

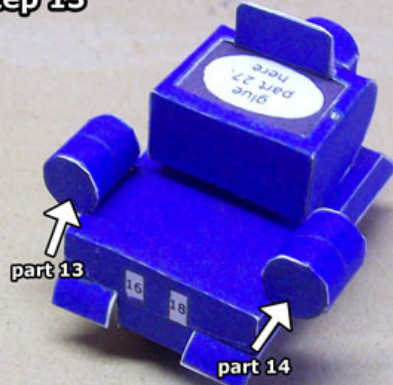

Cut out and assemble parts 11 and 12 by folding double the long strips as shown here...

### step 12

Slightly bend the ends of parts 11 and 12, and then take your time to glue them underneath the hull as shown here.

### step 13

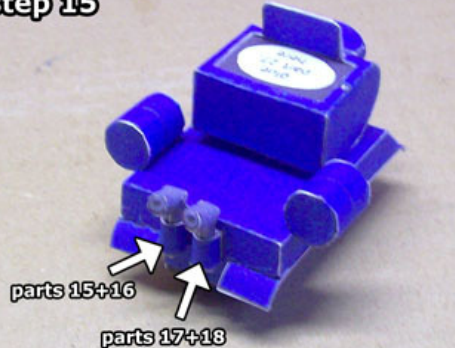

Assemble parts 13 and 14 and then glue them to the notches on the back of the hull.

### step 14

Assemble and glue together parts 15-19.

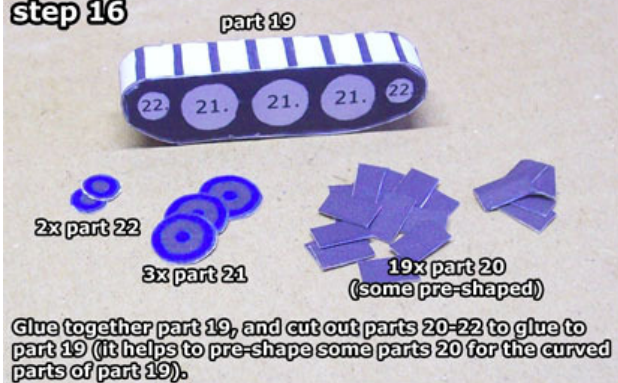

### step 15

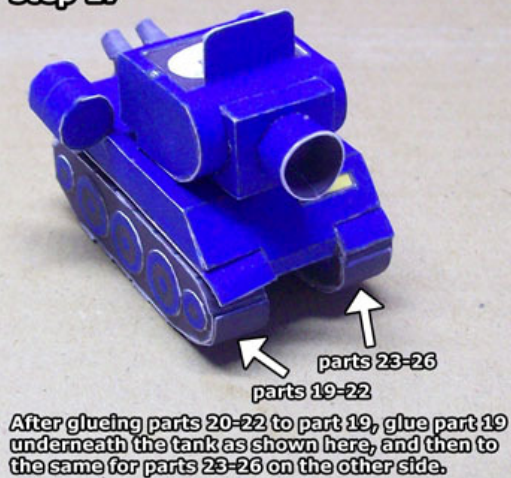

Glue the two exhausts to the back of the tank.

## step 16

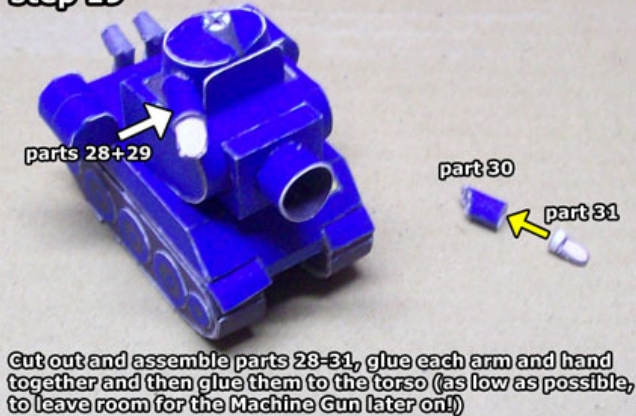

## step 17

## step 18

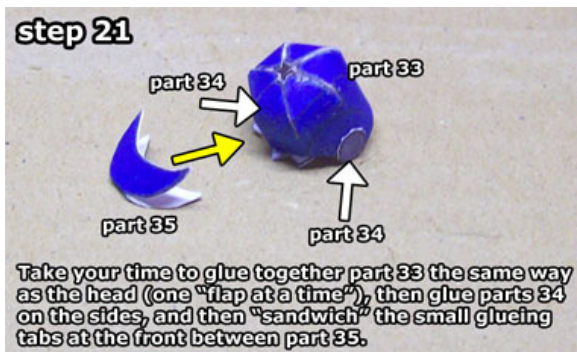

## step 19

## step 20

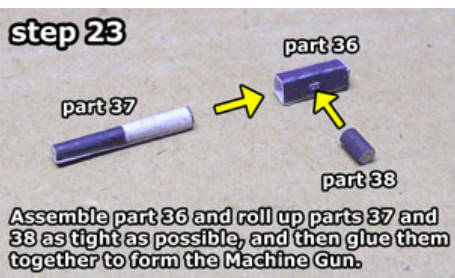

## step 21

## step 22

## step 23

## step 24

parts 36-38

**Blue Moon  
Tank**

Glue the Machine Gun on top of the turret, just behind the right arm of the little soldier.

Thank you for building a Ninjatoes' papercraft model!
